--------------	----------

get_info_covid19france

Get info about this dataset

Description

Get info about this dataset

Usage

```
get_info_covid19france()
```

Value

A tibble with information about where the data is pulled from, details about the dataset, what the data types are, etc.

Examples

```
get_info_covid19france()
```

refresh_covid19france *Refresh data*

Description

Refresh data

Usage

```
refresh_covid19france(verbose = TRUE)
```

Arguments

verbose Should messages about what's going on be displayed?

Value

A tibble of the most up to date per-day data on cases of COVID-19 in France, ordered by date descending.

Examples

```
refresh_covid19france()
```
